The objections to claims 16 and 20 have been overcome by the amendment filed March 15, 2006. The objections are withdrawn.

The rejections of claims 11-20 under U.S.C. 112, second paragraph have been overcome by the amendment filed March 15, 2006. The rejections are withdrawn.

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-4 and 7-9 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. Claim 1 recites the limitation "the housing" in third line. There is insufficient antecedent basis for this limitation in the claim.

Claims 2-4 and 7-9 are dependent on claim 1.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 19 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Blazic et al (4,927,108) in view of Rodewald et al (DE 4421666 C1, June 14, 1995).

Art Unit: 3727

6. Regarding claim 19, Blazic et al discloses a receptacle assembly for automobiles that comprises a mount (16) and an insert (24) arranged to be guided in a drawer like manner, a holder and a removable receptacle (30). Blazic does not teach a mechanism for lifting the receptacle. Rodewald et al discloses a holder with a removable receptacle carried by the holder and a lifting mechanism to lift the receptacle vertically. The lifting mechanism comprises an adjustable actuator element (button 10, Figures 2 and 3), a transmission element associated with the actuator element, the shaft extending downward from the button to the hinged pivotal lever (11). It would have been obvious to one of ordinary skill in the art at the time the invention was made to have incorporated the use of the lifting mechanism of Rodewald et al in the assembly disclosed by Blazic et al to provide a mechanism for lifting the receptacle to allow for easier removal.

7. Regarding claim 20, Blazic et al discloses the receptacle is an ashtray.

***Allowable Subject Matter***

8. Claims 10-18 are allowed.

9. Claims 1-4 and 7-9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
